Assault WITH A SWORD .-- Yesterday Officer Ca-ASSAULT WITH A SWORD.—Lesterday Officer Cabon John John Salaw of the Court of Special Sessions arrested John John Mary Jehl, and Engene Jeal, on a charge of assault with a darserous weapon. It appears that a man named George W. Dunkin came into the house of defendants, on the corner of Fulton avecuse and Pearl street, and insisted on having something to drink. Being refused, a fracas occurred between Dunkin and the chief Jehl and wife, during which the son Engene came out of another spartment with a short sword and elashed at Dunkin in a furiess manner, cutting him severely about the head and face. The Jehls were brought before Justice Smith and held for examination.

STABBING CASE IN PATERSON-FATAL RESULTS .-On Christmas night a man named O'Brien went to a low tavern in Paterson called the Washington House, near the Eric Railroad Station, to obtain more liquor. He sppeared to be partially intoxicated at the time. Before leaving, a quarrel arose between him and the bar-tender, and the consequence was a fight, in which O'Brien drew a pocket-knife and inflicted some severe wounds on the other party. The latter, however, obtained the weapon, and in turn so used it upon his assailant that he died in prison, on Saturday last, from the effects of the wounds. McKnight, the bar-tender, hes in a precarious state. The tavern is described as one of the meanest in the place. O'Brien bore a good character, when sober, for peaceableness, and the sad results are to be attributed altogether to alcohol.

There was a fair amount of business done at the Stock Board to-day without important change in prices. The market at the close was firm for nearly every description. Eric closes at about the same price as yesterday, 50%. Reading shows an improvement of & P cent. Central fell off 1 P cent. The receipts for December are stated unofficially at \$750,000 which is very large. Cumberland sold at 23, buyer 30. Nicaragua was among the firm Stocks, and was is; bid at the close. In Western Shares there was considerable business at irregular prices. Panama was in demand at 1041 at the close. The dividend, it is reported unoffially, will probably be 6 \$\phi\$ cent for 5 months. In Rail road bonds the transactions were small and prices with out much change. Sales \$21,000 Eries, 1875, were made at 872, which is better. State Stocks were quiet and

firm. The market for Stocks was favorably influenced by a little relief in money after 1 o'clock and by the impression that the market will be much relieved after the 1st proximo. The Bank Statement, though looked upon as unfavorable, did not have much influence, as the loss of specie is known to be not to foreign countries and the condition of the Exchange market promises to retain our specie accumulations in the

country for some weeks at least. The transactions in Exchange for this steamer have not been very large; Bankers have drawn but moderately; remitters have been largely supplied by outside bills. The best sterling bankers' signatures could be had at \$1 \$7 cent, and first-class bank and commercial names sold at 8 \overline{a} % \overline{b} eint. Some were sold as low as 71 274. Francs, 5.271 2 5.20 and very heavy. There is quite a large supply of bills over and lower rates are anticipated for the Collins boat on Saturday.

Freights are lower: engagements to Liverpool of 42,000 bushels Grain at 8d. 29d., the latter an extreme rates; 200 bales Cotton at 7-32d, for compressed and 3s, 6d, for Sea Island; 1,000 bbls. Rosin at 3s; and 500 tierces Beef at 5s.

The increased receipts from Customs, it will be seen,

The money market on call continues to be stringent, although scarcely so much as on Saturday. Call loans are nominally 7 P cent, but much higher rates have been paid for temporary accommodations. Paper is 9 210 P per cent for first class and in good demand. The large disbursements to be made during the week, amounting to not less probably than eight millions of dollars, must have a favorable influence, although we do not look for any immediate important relief. A comparatively easy money market is almost universally anticipated during January. The new year com-mences with good promise, and we hope to avoid the disasters which shook the financial world last January.

First-class paper during that month was 12@15 \$\rightarrow\$ cent, and the failures of Messrs. Page & Bacon, Wadsworth & Sheldon, and a number of other leading houses here and at the West, gave a great shock to confidence. This recovered from, and the specie in Bank running up to seventeen millions, the money market became easier until Midsummer, when call-loans were down to 5@6 P cent and paper 788 F cent. During the activity of the Fall business money rates rose again to 7 ♥ cent on call and 10@12 ♥ cent on paper. With the exception of intermittent panies in the stock market, the latter part of the year has been free from serious disasters, and the business of the year has been generally very profitable. We presume there has not been for sev eral years one during which so safe and profitable a business has been done by our jobbers, grocers and tradesmen generally. The street has been subject to the usual fluctuations. some of them to serious extent; but the prices of stocks are generally higher than at the same period of last

year, and in some instances the advance is large. The

largest fall has been in Harlem, which has gone from 301 to 171; and the largest advance in Galena and

Chicago, which has improved 92 to 122%. We aunex

The deposits have been increased by the large remittances from the West for the payment of dividends, &c. We have lost but a moderate amount of gold during the week by foreign shipment, but the interior has drawn largely upon us. The West has taken a large amount. Ohio, Baltimore and New-Jersey have all required temporary help in making up their bank statements. About \$300,000 have gone to Baltimore, nearly as much to Ohio, and we have heard the amount taken to New-Jersey estimated as high as

\$700,000. All this, of course, will soon return to us. We have also over two millions received on Saturday and Sunday from California, too late to appear in this statement. The general impression was that the loans had been contracted during the week, and this may still be the case.

The attention of moneyed institutions and capitalists is directed to the advertisement of Mr. John Thomp-

on under our financial head.

The New-York Exchange Bank has declared a half year's dividend of 4 P cent, payable on Wednesday. The Phenix Bank has declared a dividend of 4 ?

cent, payable on the 2d January.

The Island City Bank has declared a dividend of 3] P cent, payable on the 10th January. By reference to our advertising columns it will be

seen that the Atlas Mutual Insurance Company have elected Thomas S. Nelson, esq., (of the firm of Holbrook & Nelson,) President, and appointed Marcellus Massey, esq., Assistant President.

Among the large disbursements to be made during the week for dividends, interest, principal, &c., will about a million by Messrs. Winslow, Lanier & Co.; about four hundred thousand dollars by Messrs. Duncan, Sherman & Co.; the same amount by the Ohio Life and Trust Company; about six hundred thousand dollars by Mr. Egerton, the State Agent of Ohio about four bundred thousand dollars by the American Exchange Bank for Illinois, &c.; about the same amount by the Bank of Commerce; two or three hundred thousand dollars by Messrs, Attwood & Co., and about four millions by the Manhattan Bank, in reimbursement of State debt, payment of interest, &c.

The Ohio Life and Trust Company will pay on the 2d proxime the interest on the bonds of the Hillsborg' and Cincinnati Railroad Company.

The receipts of California gold during the year have been \$40,720,000, against \$54,968,000 in 1854. The exports from this port and from Boston have been \$42,450,000, against \$44,582,000 in 1854.

A dispatch from Chicago states that the surplus, after the payment of 22 \$\psi\$ cent dividends, during the year is \$309,000, or about 7 P cent more, making 29 P cent earnings for the year. A small fraud was announced in the street to-day.

which, before the amount was known, caused a little excitement. It appears that one of the clerks of Mr. Belmont, having received a check for a bill of ex-change drawn to bearer, drew the money and disappeared from his post. The amount was only \$1,081 This is the third robbery committed upon Mr. Belmont within a few years. Mr. Relmont's agent has now adopted the system of having all checks drawn to order, and this course should be the rule with all persons paying money by checks to draw them to the order of the principals.

The letter received by the last Aspinwall steamer

says:
The New-Granada Canal and Steam Navigation Company have already begun the work of preparing the canal for navigation, and I am assured that in three months this important work will be so far ad-vanced as to admit steamboats to its navigation. There is no doubt that the Company that has the contract of this canal will ultimately monopolize the carrying business on the river Magdalena."

The double track of the New-Jersey Railroad Com-

pany is now completed to Rahway, and will be extended to New-Brunswick.

The receipts of the Bellefontaine and Indianapolis Road for the past six months have been as follows-December is partly estimated:
